

To Whom It May Concern,

We first partnered with Sunco Construction Company in 1996 when Capital Adhesives broke ground on our 15,000 square foot Production/Warehouse/Office Space in Mooresville, Indiana. Sunco's expertise helped us meet our needs through the ever changing design/build project.

In 2004, Sunco Construction added 13,000 square foot of Warehouse Space onto our existing building. Over the years, Sunco has completed many smaller projects for Capital Adhesives as we continue to change and to grow.

Each contract with Sunco has been entered into on a cost plus a fee basis. This seemed to be the best option for us as we often are working with ideas and without a hard set of plans.

The honesty and integrity of Sunco's multigenerational company has proven to be a successful partnership with Capital Adhesives on each cost plus project. Knowing that everyone involved in the company from the owners to the on-site workers live in the Mooresville community, gives me assurance that no detail will be left undone.

Once again we will be partnering with Sunco and we look forward to breaking ground in the very near future on a 3rd expansion of Capital Adhesives' building.

Sunco Construction Company is a very competent General Construction Company who takes pride in their work. I would recommend them for any project small or large.

Sincerely,

Roger Wathen
